Overall impression & Presentment of the portfolio	The presentation left a positive overall impression, presenting the person's work product, skills, and capabilities as a UX professional.	The presentation leaves a generally favorable impression, but there are areas for improvement in showcasing the use case material and presenting their skills and capabilities effectively as a UX professional.	The presentment leaves an overall impression of neutral or negative, and improvements are needed to the use case materials and presenting their skills and capabilities need to be communicated more effectively.
